OUR APPROACH TOWARDS THE PROBLEM

1. UAE being a new market, a detailed discussion on the requirements by considering the local complainances, taxation & business requirements

2. Personal Visit to Dubai for on-site discussion & understand customer's expectation

3.Make product ready and categorized into two phase of implementations - **1) TMS. 2) WMS.**

4. As per the requirement & UAE compliances make the TMS ready & set up the UAT process - **(01-11-24)**

5. Made the final changes with the product as per the last UAT findings and the product is ready for Go-Live.

6. Go-Live with first phase having TMS live. **(30-11-24)**

7. Make the WMS product ready as per the requirement & setup the UAT for WMS.

conmove

OUR APPROACH TOWARDS THE PROBLEM

8. Perform the UAT for WMS & make final product ready by worked on the UAT findings. **(01-01-25)**

9. With WMS go-live using customized product to meet all expectations during UAT **(29-01-25)**

10. End European customer access to interconnect on the same platform for real time visibilty with view access only.

11. Go-Live with the final stage which is Customer Login for WMS. **(15-03-25).**

conmove

RESULT & OUTCOMES

1. **Unified TMS & WMS platform** with single-window operations for logistics and warehouse management.

2. **Automated workflows** to minimize human intervention, reducing errors & inventory mismatches.

3. **Simplified job/NOC creation** with seamless in-bond, truck-in/out, & ex-bond processes.

4. **Integrated booking management** for transportation with real-time status tracking.

5. **Automated invoicing & receipts** linked to TMS/WMS job execution.

6. **Real-time inventory dashboards** (live/mismatch tracking) with batch/expiry data & customizable reports.

conmove

RESULT & OUTCOMES

7. **Centralized admin control** with role-based user access & customer portals for inventory visibility.

8. **Master data management** for dynamic updates of TMS/WMS configurations.

9. **UAE compliance** tailored to national standards & operational conditions.

10. **End-to-end transparency** from bookings to stock reconciliation via a unified interface.

CONCLUSION

We are proud to partner with **Mutwaj!** deliver cutting-edge logistics & warehouse management solutions that drive efficiency, transparency, & digital transformation. Our cloud-based platform seamlessly integrates **Transport Management System (TMS)** & **Warehouse Management System (WMS)** into a single-window solution, empowering Mutwaj with end-to-end operational control.
